ThoughtSpot Cloud Essentials Training (Onsite)

Schedule your own private training session for your team with our Cloud Essentials (Onsite) offering to be delivered on a schedule convenient to you.

ThoughtSpot Training Services

The ThoughtSpot Training Services program offers both live, interactive, instructor-led product training as well as self-paced, anytime/anywhere modular eLearning to support your deployment team and end user training needs.
ThoughtSpot Cloud Essentials Training (Onsite)

ThoughtSpot Cloud Essentials (Onsite) is a three-day training program for ThoughtSpot Cloud and ThoughtSpot Embrace customers for up to 20 customer attendees per day. This hands-on, interactive, instructor-led class first focuses on two of the primary disciplines in implementing ThoughtSpot: Data Connectivity & Making Data Searchable. The first part of the course is devoted to connecting ThoughtSpot to your data warehouse using Embrace and will look into the many ways in which connected data can be prepared for searching by end users. This is followed by end user functionality training which includes hands-on experience with the basic and advanced search features of the platform. The program is modular allowing participants to attend one, two, or all three days based on their training needs.

Standard 3-day Agenda

**ThoughtSpot Data Expert Training - Day 1**
The Data Expert Training involves an end-to-end discussion on the process of connecting to your data and optimizing it for search in ThoughtSpot. It also introduces several relevant data modeling topics. Includes hands-on, interactive lecture allowing participants to experience setting up the data connection for themselves.

**ThoughtSpot Data Connectivity - 1 hour**
This course focuses on the main technical topics and best practices around connecting ThoughtSpot to your data with Embrace. Through interactive lecture and specially designed training environments, you will then get hands-on practice creating a connection to a Cloud Data Warehouse (CDW) and deciding which tables and columns will be available for search by your business users.

**Topics Covered:**
- Introduction to Embrace
- Creating a Connection
- Editing an Existing Connection
- Remapping a Connection

**ThoughtSpot Making Data Searchable - 4 hours**
Modeling and optimizing the loaded data for the ThoughtSpot search experience will be covered in detail in this course. Beginning with topics on data management in ThoughtSpot, the class quickly moves into hands-on lecture around Worksheet design. Advanced topics include formula creation, using views, and making use of row level security to ensure ThoughtSpot users only see the data they have permission to see.

**Topics Covered:**
- Exploring Data Management
- Creating Worksheets
- Creating Formulas & Views
- Row Level Security
- Scriptability (ThoughtSpot Modeling Language)
ThoughtSpot End User Essentials - Day 2
4 hours
End User Essentials is the foundation course designed to teach participants the core end user functionality of ThoughtSpot. Through hands-on lecture, students will master basic search, changing visualizations, saving answers, drilling, filtering, and using ThoughtSpot Mobile to analyze data from their mobile devices.

Topics Covered:
• Search
• Answers & Pinboards
• Custom Visualizations
• Filters & Drilling
• ThoughtSpot Mobile

ThoughtSpot Advanced End User - Day 3
4 hours
Go beyond the basics of the end user features covered in the ThoughtSpot End User Essentials course to discover the advanced analytic capabilities of the platform. During this hands-on, interactive course you will dive deeper into Pinboard creation, formatting your results, and using SpotIQ to find answers to questions you didn’t even know to ask of your data. Do more advanced searches using ThoughtSpot Keywords and create your own custom attributes and measures using formulas to take your analyses to the next level.

Topics Covered:
• Answer & Pinboard Creation
• Using SpotIQ
• Advanced Searches
• Conditional Formatting
• Creating Formulas
• Uploading User Data

Pricing
The cost for the 3-day training program for up to 20 participants per day is $15,000.

Duration/Hours
When delivered virtually, the program is delivered over the course of 3 days. Day One is 5 hours and Days Two and Three are 4 hours each. When available, the program can be delivered in person, onsite over the course of 2 days.

Customer Responsibilities and Resources
For in-person training events at the Customer site, Customer will pay trainer T&E expenses. Customer also will provide:
Training/meeting room that comfortably accommodates the number of attendees.
High-speed, high-bandwidth internet access
• Projector
• Screen
• Whiteboard
• Meals
ThoughtSpot Cloud Essentials Training (Onsite)
Terms and Conditions

For scheduled training days that are canceled or rescheduled by Customer with fewer than ten business days prior written notice to ThoughtSpot, Customer will be charged and pay for: (a) any travel expenses that cannot be canceled or refunded, and (b) the canceled/rescheduled training days if ThoughtSpot is not able to reassign the personnel to another project. For the purposes of this section, email to the ThoughtSpot personnel assigned to this project will be sufficient as written notice.

ThoughtSpot will provide the Cloud Essentials Training (Onsite) package described herein as identified on the corresponding Order Form. No services are included in this offering except as expressly included in this document. Customer agrees to pay the total fee amount on the Order Form regardless of the total number of hours completed.

ORDERS ARE NON-CANCELLABLE, NON-REFUNDABLE, AND NOT SUBJECT TO ACCEPTANCE. PURCHASED SERVICES MUST BE CONSUMED WITHIN 12 MONTHS FROM THE EFFECTIVE DATE OF THE ORDER FORM, AFTER WHICH TIME UNUSED SERVICES WILL BE DEEMED COMPLETED WITHOUT CREDIT, REFUND, OR FURTHER OBLIGATION OF ANY KIND.

About ThoughtSpot

ThoughtSpot is the Modern Analytics Cloud company. Our mission is to create a more fact-driven world with the easiest to use analytics platform. With ThoughtSpot, anyone can leverage natural language search and AI to find data insights and tap into the most cutting edge innovations the cloud data ecosystem has to offer. Companies can put the power of their modern data stack in the hands of every employee, extend the value of their data to partners and customers, and automate entire business processes. Customers can take advantage of ThoughtSpot’s web and mobile applications to improve decision making for every employee. With ThoughtSpot’s developer-friendly platform, customers can also embed consumer-grade analytics into their SaaS offerings or build entirely new interactive data apps that engage users and keep them coming back for more. Organizations like Walmart, BT, Daimler, Medtronic, Hulu, Royal Bank of Canada, OpenTable, Metromile, Workato, and Nationwide Building Society rely on ThoughtSpot to transform how their employees and customers take advantage of data. See for yourself and try ThoughtSpot today.
